Individual Starts. Individuals can start on any loop, but then must follow loops in alphabetical order. Ie if you start on “C” you then do D, A + B in that order. You must press the “start” only once on your first loop and the “finish” at the end of each loop and at the end.

Mass start – Runners will be given maps at the start face down, on completion of that loop they will complete the race in alphabetical order as per the individual.

Running course out of order will earn you a DNF.

If you don't understand this simple process please ask before you start.
