Where	Army Orienteering Association Centre of Excellence Longmoor Camp and Training Area			
Why	<p>Orienteering can be used to develop many of the qualities that are essential in a good soldier. At its most demanding, orienteering provides the challenge of navigating at speed, testing navigational skill and aerobic fitness.</p> <p>The skills required of a good soldier are very similar to that of an orienteer: rapid map interpretation & confident compass work; continuous terrain analysis & option reassessment; all while under physical duress and mental stress.</p>			

Sponsor: Army Orienteering Association (AOA).

Organising Corps: IAW AOA DIN - Infantry.
