USE OF PLASTIC BAGS FOR PRE-MARKED ORIENTEERING MAPS

1. During recent orienteering events where maps have been pre-marked and issued at the start, the covers used for the maps have been A4 plastic file covers.
2. The A4 plastic file covers do not offer the same degree of protection for maps, can be difficult to fold when on the run, are not always as clear as normal plastic bags and are more expensive (obtained through stationery budgets).
3. Plastic bags in various sizes are available through QM's/QM(T)'s Depts Expense Stores at no cost to unit budgets.
4. It is recommended that units putting on orienteering events demand the following bags for use as map bags:
 - a. 8105 99 869 4289 Bag Plastic Polyethelene 80 mgm thick
250mm x 300mm

Demand as Qty One (pack of hundred)
 - b. 8105 99 869 4290 Bag Plastic Polyethelene 80 mgm thick
250mm x 400mm

Demand as Qty One (pack of hundred)
This bag is 100mm longer than A4 and is suitable for folding over or heat sealing.
